ADRIAN DANCIU

Software Engineer

adrian.razvan.dnc@gmail.com · +40 720 058 583 · Bucharest, Romania

LinkedIn · GitHub · Portfolio · Medium

SKILLS

Languages & Frameworks
TypeScript · JavaScript
React · Next.js · Stencil.js
Node.js

Styling & UI
TailwindCSS · SCSS · CSS
MUI · Design Systems

State & Data
Redux · Zustand · React Query

Testing
Cypress · Jest · Vitest

Tools & Platforms
Git · JIRA · Azure
Adobe Experience Manager
Figma

Practices
Component Library Architecture
Accessibility (WCAG)
Responsive Design
Performance Optimization

EDUCATION

Bachelor's, Computer Science
Universitatea Titu Maiorescu
Oct 2023 – Jul 2026 (Expected)

Fullstack Development Bootcamp
NewTech Academy
Mar 2022 – Feb 2023 · Top of class

LANGUAGES

English — Professional
Romanian — Native

PROFILE

Frontend engineer driving a **Stencil.js design system** at DHL — 50+ components powering 5+ products. 3+ years across media, fintech, insurance, and enterprise platforms. Strong in React, Next.js, TypeScript, component library architecture, accessibility (WCAG), and mentoring junior engineers.

EXPERIENCE

DHL — Software Engineer Apr 2025 – Present · Remote

Design System Engineer · Stencil.js (Aug 2025 – Present)

- Maintain and extend a Stencil.js component library powering 5+ DHL consumer-facing products, with 50+ components in production and an active pipeline of new work.
- Ship new components, refactor existing ones, and manage breaking changes across consumer teams at a fast cadence; partner with product teams to triage bugs and evolve the library against real consumer needs.

AEM Engineer (Apr 2025 – Aug 2025) — Remediated AEM and Stencil components against internal WCAG accessibility audits; shipped design refreshes and stakeholder-driven updates to customer-facing pages.

3Pillar Global — Software Engineer Aug 2024 – Apr 2025 · Remote

Client: The Telegraph

- Contributed to The Telegraph's mobile app — built with Next.js and integrated with the Twipe digital publishing platform — shipping features, bug fixes, and visual reskins for iOS/Android.
- Worked within the AEM engineering team responsible for platform stability: dependency upgrades, version migrations, refactors, and system-wide fixes that kept editorial and product teams unblocked.

NN Asigurări — React Developer Jun 2024 – Aug 2024 · Bucharest

- Built internal web and mobile interfaces with React, TypeScript, and Redux, integrating UI with backend services from design specifications.

Secretcode.ro — Frontend Developer May 2023 – Jun 2024 · Remote

- Built modular, performant interfaces for an internal developer-focused education platform end-to-end: React, TypeScript, Redux, backend integration, and Cypress E2E tests.

NewTech Academy — Frontend Trainer (Part-Time) Feb 2023 – Aug 2024

- Promoted from Assistant Trainer after graduating top of class; taught HTML, CSS/SCSS, JavaScript, TypeScript, React, Git, and Firebase across multiple cohorts.

PROJECTS

Corpex — Integrated ERP for Romanian SMEs (bachelor thesis) — stock, HR, fleet, finance, projects, and reporting in one platform. Built end-to-end: GraphQL API with department-based RBAC, Prisma data model across 9 modules, and a dashboard with kanban, org chart, invoice PDF generation, and document-expiry tracking. *React · TypeScript · NestJS · GraphQL · Prisma · PostgreSQL · TailwindCSS · shadcn/ui.*

Artie (artie.chat) — AI image generation chat app — built the chat UI, design system, and brand from scratch. *Next.js · TypeScript · TailwindCSS · GSAP.*
